Who is Gary Wheat?

Pastor, Teacher, Mentor, Coach, Consultant. For the past 19 years, Gary Wheat has served as lead pastor of The Assembly in Siloam Springs, AR. Before taking this role in 2001 at The Assembly, he was the lead pastor at First Assembly of God in Norman, OK. He uses his experience from leading both of these churches to help pastors, leaders and churches to grow in a healthy manner.

In 1998, the church in Norman was in a significant transition. It had just lost its pastor to cancer, and had plans to relocate with no building plans, no land and only 25 members. For the next three years, Gary led the church to grow from averaging 35 in weekly attendance to over 170. They were able to purchase land and build a new church building where they continue to thrive.

In 2001, Gary and his family moved to Siloam Springs to become the lead pastors at what is now The Assembly. The church had experienced a very difficult time. With Gary's experience, network and leadership abilities, the church is now a healthy, vibrant church that is impacting its community and the world.

In 2018, The Assembly moved from its former location to a new 20-acre campus. In 2019, The Assembly had the opportunity to parent another church in Gentry, AR. Now, The Assembly has two campuses that are reaching more people for the Kingdom of God.

The journey hasn't been without its challenges, but Gary has led these churches to a new level of growth to impact the Kingdom. With his network with other leaders, coaches and consultants, Gary has a heart to help other pastors, churches and leaders reach their full potential.
